

Risk 1

**Slipping, tripping
falling and stumbling**

Working safely together

Source measures

Ensure in the design:

- That there are no or at least as few obstacles or irregularities as possible in the floor surfaces.
- That railings have been installed at risky places.
- Ensure good lighting.

Collective measures

Redirect employees around risky areas.

Provide the necessary alerts, and inform employees about possible risks in certain places.

Keep workplaces clean and tidy.

Individual measures

Avoid risky places where possible.

Keep workplaces clean and tidy.

Use only approved ladders, stairs, gangways, etc.

Do not carry luggage when transferring, and make sure that both hands are free.

PPE

Wear appropriate safety equipment (PPE: safety shoes, when transferring lifejacket, etc.).
